

## THE WORLD OVER

VESSEL SINKS, 18 DROWN

CLEVELAND—Eighteen crew members and a woman passenger of the Sander Merchant, a Canadian craft, were drowned when the 252-ton vessel rolled over and sank in a 50-mile gale that swept across treacherous Lake Erie, 14 miles northwest of Cleveland Saturday night.

Many of the sailors desperately clung to two capsized lifeboats for hours before sliding off to their death. Seven men were rescued at about eight a.m. Sunday by two freighters en route to Lake Erie ports. The tragedy occurred at the Toronto-owned vessel was caught in a terrific storm.

## SNOW CLEARING EXTENDED

Some 1,200 miles at least of main highways in this province are to be kept clear of snow this winter.

With the purchase of three new five-ton trucks of an improved type, the Public Works Department hopes to carry out a greater amount of mileage than in previous years.

Motor car owners will welcome the announcement that the units are of an improved type, having sharper points on the plows which will more readily dig through the drifts.

This new equipment is being obtained to replace other trucks which have been in service for many years and are largely worn out.

A year ago the department faced the necessity of replacing the machines in use but these were again utilized in account of the long winter and heavy snowfall. The trucks now ordered are to be in full readiness for the winter road clearing program.

## NEW HOCKEY LEAGUE KNOWN AS THE ALBERTA SENIOR SIX

Alberta Senior Six Hockey League was formed at a meeting held in the city over the week-end.

This circuit will include the two Calgary clubs, Brooks and the Rangers, Superiors and Dominions of Edmonton, Miners of Drumheller, and Elks of Olds.

James Deszeu, of Drumheller, who was president of the Southern Alberta league last winter, consented to fill the same office with the new circuit. An Edmonton sportsman, yet to be appointed, will fill the office of secretary-treasurer.

It is proposed that each club have 13 home games, including a double round between the north and south clubs. Edmonton teams will play three games between themselves while the old southern teams, Brooks, Rangers, Miners, and Olds will play an extra round in order to balance up the schedule.

Drumheller games will be played on Wednesday and Friday, while other clubs prefer games on Saturday night, with a few Wednesday games in Olds and Calgary.

Brooks and Rangers will open the league on Saturday, Nov. 21. Olds and Drumheller will clash the following week, while the two Edmonton teams will have their opening the first week in December. The schedule will be drafted this week but will not be officially approved until the league holds another session.

## WILLIAM DOUGLAS DIES AT HOME OF DAUGHTER HERE AFTER A LENGTHY ILLNESS

Came From Scotland to Carbon District in Year 1906

## FUNERAL IN CALGARY

After a lingering illness death came to William Douglas on Wednesday, October 15th, at the home of his daughter, Mrs. Alex Shaw, where he has resided for the past fifteen years. The late Mr. Douglas was born in North Muirton, Perth, Scotland, 34 years ago, and came to Canada in 1906, settling in the Carbon district. Surviving are a sister, Mrs. David Tyntine of North Scotland, and son William M. Douglas of Carbon; two daughters, Mrs. Alex Shaw, Carbon, and Mrs. James Groundwater, Acme; and twelve grand children.

Funeral services for the late William Douglas were conducted at the Park Memorial chapel, Calgary, on Saturday afternoon, Rev. W. H. McDonald officiating. Pallbearers were W. Gordon, James Gordon, W.D. Elliott, A.R. Walker, Wm. Cottrell, and S.F. Torrance, all of Carbon and district. Interment was made in Union cemetery, Calgary, beside his wife, Mrs. Sarah Douglas, who predeceased him in 1921.

## MARY JULIA JUNG OF HESKETH FOUND DEAD

Tragedy entered the home of Mr. and Mrs. Fred Jung of Hesketh on Wednesday, October 15th, when their three-year-old daughter, Mary Julia, was found drowned in the Kneehill creek about 200 yards from their home.

The child disappeared Tuesday evening and a prolonged search was made late into the night without result. Wednesday the father of the child found the lifeless body of his baby in shallow water in the creek. Coroner Dr. G.M. Gibson, accompanied by R.C.M.P. officers investigated the drowning.

Two old settlers, confirmed bachelors, sat in the backwoods The conservation drifted from politics and finally got around to cooking.

"I got one of them cookery books," said the first, "but I never could do nothing with it."

"You must fancy work in it, eh?" "You've said it. Everyone of them recipes is done some way. 'Take a clean dish—' and that settled me."

Where there is a unity of purpose there is progress, profit and good fellowship. Where individualism holds sway, there is stagnation, loss and isolation.

## Large Registration in Didsbury Constituency

DR. J.S. BURRELL, DENTIST TO VISIT CARBON MONDAYS

Dr. J.S. Burrell, dentist, of Three Hills has announced that he will make regular visits to Carbon each Monday for the practice of his profession. Dr. Burrell's first visit to Carbon was on Monday of this week and for the present he is making his headquarters at the Carbon Hotel.

## PIPE LINE AT SKATING RINK NOW COMPLETED

The trench for the pipe line from the well at the creek to the skating rink has been completed and the pipe laid. With plenty of water in the well and a good pumping system assured it appears that Carbon is to have a skating rink this fall. The work done has been voluntary and the accomplishment is appreciated by the citizens of the town and district who are interested in the winter sport of skating.

## LONG YEARS AGO

October 20, 1920

Miss Charlotte, Miss O'Connor, Miss Maxwell and Miss B. Smith, all Calgary School pupils, spent the Thanksgiving holidays in Carbon, with their parents.

Harry Evans, J.O.A. Letourneau, L. Poirer and Dan Thurlton are out on a shooting party at Donalds.

Harvest dinners, raffles, sales and chicken suppers are the order of the day and either one or the other will be held shortly at the Gamble school, by the Church of England in the Farmers' Exchange hall, by the Roman Catholic church in the Ex. Hall, and by the Ladies' Aid of the Presbyterian church in the Ex. Hall.

## TREES AVAILABLE FOR FARMERS IN ALBERTA

With reference to the all-important function of tree planting in Alberta, it was learned in an interview given by the Hon. G.C. Ross, Minister of Lands and Mines that certain types of trees were available to farmers for transplanting and could be secured for this purpose on application to the Forestry Division of the Department.

The principal object in view, Mr. Ross stated, was to provide transplant plants for replacement of less valuable species in shelter-belt and windbreaks, to introduce a more desirable product than the native variety found in the bluffs now in existence and to give protection to such products by planting them in stands of trees already established so as to provide necessary shade for the new trees to ensure a healthy and permanent growth.

Available for planting in the spring of 1937, the Minister continued, will be limited quantities of white spruce, jack pine, green ash, and elm. There will also be a number of bur oak and Siberian larch with which the Forest Service has been experimenting successfully and of which a few may be given out for trial. In addition to these a large number of lodgepole pine, ponderosa pine, and spruce, offering healthy root systems, are available for distribution. These trees are recommended for planting in this province.

To avoid any possible confusion, application forms should be secured from the Director of Forestry, Department of Lands and Mines, Edmonton, the Minister continued. Forms previously filled out as to quantity and species required should be added, be sent in to the Department before the end of the present year for trees required for planting next spring.

They were having a neighborly chat over the garden wall.

Wilks—"What caused your black eye?"

Plugs—"See that garden rake?"

Wilks—"Yes."

Plugs—"Well, I didn't."

Total Registration For Dividends Was 3854; 4261 Names on List

## POLL REGISTRATION

Compilation of totals of the Registration for Basic Dividends at the various polls in the constituency has now been completed and the results show a very high registration percentage as compared with the number of votes cast at the last provincial election.

Total registration in Didsbury constituency was 3854 provided with 4261 ballots cast, or, in other words, shows approximately a 94 per cent acceptance of Social Credit.

Three Hills poll came very close to showing 100 per cent registration, with 350 persons registering, compared with the vote of 352. A number of polls did exceed the vote.

These figures do not necessarily imply that this percentage of those who voted in the constituency registered for Social Credit, due to increased population, and transient registrations, but they nevertheless show a very high registration.

A wealth of information as regards the voters in the constituency has been collected. An outstanding item is the four and one-half million dollar debt of registered persons—in one of the most prosperous districts of the province!

Following is the registration by polls:

Bergen	106
Elkton	126
Dogpound	126
Elkton	61
Neapolis	61
Julian	54
Sunbury	127

## ALTA. POPULATION INCREASED

Population of Alberta has increased from 1931 by more than 40,000, according to final figures of the 1936 census received over the week-end.

Alberta's population is 772,071 this year, according to the report. The 1931 figure was 731,675.

Out of the 17 provincial and federal electoral districts in Alberta, 12 show local increases in population.

## TEST FORECAST FOR DEBTS ACT

An action has been started in Edmonton by the Imperial Trust Company to test the Settlement of Debts Act and the Debt Adjustment Act of 1936. Both acts will come under review in this suit, and the attorney-general is named as a co-defendant.

G.W. O'Connor, K.C., represents the plaintiff. Issues that will be settled by the suit will include a decision on whether Reduction and Settlement of Debts Act applies to debts already reduced under the Farmers' Creditors' Arrangement Act, Mr. O'Connor states. The validity of the act inasmuch as it allegedly infringes on government power to legislate on interest agreements, will also be argued. The validity of the act will also be attacked on the claim that its power to extend payment over a period of eleven years in "good faith" is also infringed on the same grounds—infringement on Dominion power to legislate as to bankruptcy and insolvency, he said.

## WINTER WEATHER

The first signs of winter appeared on Monday when light snow covered the ground and the weather turned cold in the evening. Tuesday morning a heavier fall of snow appeared, and although the temperature moderated, a blanket of snow still covered the surrounding country. Later in the day the sun came out and the clouds disappeared, although it is still cold with heavy frosts at night.

We may get some fine weather again. We hope so!

## UNITED CHURCH LADIES' AID CHICKEN SUPPER

The Ladies' Aid of the Carbon United Church held a very successful chicken supper on Tuesday night in the Farmers' Exchange hall, Carbon, and a large crowd attended.

Following a most delicious repast a short program was given, consisting of the following numbers: Piano: Duet, Mrs. McKibbin and Mrs. B. Ramsay, Short Skit, by the C.G.I.S. Solo, George Watt, Reading, Marion Torrance, Song and dance, by Hans Wilson, Irish Lilt, Betty Wilson and Margaret MacGregor, Acrobatic and impersonations, by Peggy Stanford.

## JOHN HART ELECTED AT YOUNG PEOPLES SOCIETY

Norman Dau of Three Hills was elected president of the Young Peoples' Society at a rally at Delburne on Thursday last. Fifty-two representatives were present from Bashaw, Delburne, Trochu, Three Hills, Acme and Carbon.

President Mac Purvis of Acme welcomed those present and gave a brief resume of the work done the year past.

The new slate of officers elected were as follows: President, Norman Dau, Three Hills; secretary-treasurer, Marjorie Young, Trochu. Others on the executive committee are: John Hart, Carbon; Mac Purvis, Acme; Beatrice Farries, Delburne; Gwen Dahl, Vash.

## REPAIRS TO CURLING RINK

Paul Barstead has been busy at the local curling rink for the past week doing some very necessary repairs to the curling rink, and on Monday he reported that he had completed his task. The rink is now almost ready for ice making and as soon as the weather is suitable this will be commenced.

## Year-Round Fire Prevention

Fire prevention week has come and gone, but fire hazards are still existent. If, however, the lessons learned during the recent fire prevention week's campaign are taken to heart and borne in mind, the risks of loss of life and property from this source should be minimized, in any event for a short time until memory wavers.

In a country like Western Canada, however, fire prevention week should be every week the year round, so far as the individual is concerned, and certainly from October 1, when hard smoking commences, until about April 7 when furnaces and stoves are extinguished for a short summer season.

As indicated at the outset memory soon lapses, and while impressions of the importance of care and precaution in the handling of fire may be vivid during the course of a public campaign, such as accompanies an event like fire prevention week, they soon fade. Such campaigns were a useful purpose temporarily, but whether they are effective permanently depends upon the receptiveness and retentiveness of the individual mind.

Moreover, with fire, as with everything else, familiarity breeds contempt. The continuous use of fire in the home or store, day in and day out for 24 hours of the day is apt to result in relaxation of precautionary measures against potential contingencies. This, coupled with increasing impairment and declining efficiency of equipment as the long winter months drag towards a close, combine to enhance the hazards of loss from conflagration.

These observations are inspired by the facts which statistics of Dominion and provincial authorities and fire insurance companies and newspaper stories record.

Despite the annual campaign which is carried on with much vigor and great publicity by these combined forces in an effort to instill precaution in the public mind, the fire demon continues to take a terrible toll of life and property in this Dominion.

When it is reported that on the average, every day in the year one life is sacrificed and more than one person injured by fire and \$110,000 worth of property goes up in smoke in Canada, the phrase "terrible toll" assumes definite significance and gives greater credence to the adage which says that "fire is a good servant but a bad master."

A daily loss of property of \$110,000 is equivalent to approximately \$40,000,000 a year. The enormity of this sacrifice to the fire god can be better appreciated when it is pointed out that the figure is a close parallel to the Dominion government's contribution under relief legislation in each of the years 1931 and 1932, the two years in which federal expenditures for this purpose reached a peak since the depression started. In 1931 the federal government's relief bill amounted to \$42,716,715 and in 1932 it was \$36,530,144, according to the Dominion Bureau of Statistics.

In other words, the people of Canada, on the one hand, are destroying annually \$40,000,000 of property as a result of their carelessness in handling fire and on the other hand, are, in heaviest unemployment years, paying out approximately the same amount for relief of unemployment, through federal taxation channels.

Much concern has been shown and is being shown over the large sums which the federal government has had to pay out in its efforts to grapple with the loss occasioned by unemployment and industrial and agricultural depression. Figures of expenditures for this purpose and articles dealing with various phases of the cost of unemployment and depression have been published almost daily during the past few years, but little is heard of the equally heavy loss occasioned by fire, except once a year when the annual fire prevention campaign is in progress.

And yet this heavy fire loss is more easy to cope with than the unemployment and relief problem. All that is required is the exercise of the same care the year round as that which people display in the handling of fire during fire prevention week when the subject is fresh in their minds.

It is not necessary to recapitulate here and now the lessons which have been taught during fire prevention week, the precautions which must be taken to ensure that loved ones will not be burned to death or maimed for life and to prevent the destruction of homes, barns or other buildings and furniture. If only people will train themselves to remember and practice these precautions and to maintain vigilance the year round, this tremendous toll of life and property can be reduced almost to zero.

## Gold Production Gains

Production in Canada During 1935 Greatest in History

Gold production in Canada during July, 1936, advanced to 319,505 ounces compared with 316,675 ounces in June and 285,763 ounces in July a year ago. Production during the first seven months of 1936 totalled 2,087,014 ounces, an increase of 15.8 per cent. over the corresponding period of 1935. The price of gold during July averaged \$34.91 per ounce, in Canadian funds, and valued at the price the Canadian output during the month was worth \$11,135,920.

Gold production in Canada during 1935 was the greatest in her history, both in amount and value. The output every month so far this year has been greater than in the corresponding month a year ago, and all indications point to a new high production record for 1936.

## World-Famous Paralyzed

Son of Famous Explorer May Never Walk Again

John Carveth Wells, son of the famous explorer and who walked around the world in two years, may never walk again. At 25 he lies paralyzed in St. Pancras Hospital in London. After a gay and colorful life John Wells started a motion picture publication in London. He has been in the news and the advertisements, and printed it himself. For months he worked from 8 a.m. to 4 p.m. One day he collapsed in his office. Within 36 hours he could not move any part of his body. He has recovered the use of his hands and his head. Courage and determination have brought him through, and he declares he will not give up the fight to walk again.

## Would Reduce Accidents

More than 7,000 lives could be saved yearly through adequate illumination of major traffic arteries between cities. Paul H. Goodell, chairman of the street lighting committee, reported to the joint annual meeting in Toronto of the American Society of Municipal Engineers and the International Association of Public Works Officials.

The earliest known date inscribed upon what is known as a "grandfather's clock" is 1681. 2172

## Ideals Of The League

Hon. R. B. Bennett Voices Appeal On Behalf Of League Support

Hon. R. B. Bennett, Canadian Conservative leader, told an Australian service club that the British Dominions must support any agency whereby the collective power of mankind prevailed against those threatening annihilation of the civilized world.

Mr. Bennett voiced a fervent appeal on behalf of the ideals of the League of Nations. "Because there has been a failure to realize the fullest hopes for the League, we cannot discard it in its entirety," Mr. Bennett said. "I refuse to believe Napoleon's maxim that God is on the side of the heaviest battalions."

The former Canadian prime minister said that while human nature had defeated the hopes for the League as enunciated by Aristotle Briand, the ideal remained. "Although the League lamentably failed to express punitive power against an offending nation, the world must try again." He said that the British Dominions must support the League to this end.

Mr. Bennett asked Australians not to consider Canada as an appendage of the United States. The choicest of our nation laid down the lives on the fields of Flanders in British loyalty and Canada has no idea that any other nation exercises suzerainty or provides its protection. We are proud of our place in the Empire and conscious of our responsibility as being midway between Europe and Asia.

## Food Faddists

Freak Diet's Tended A Starvation Course By American Doctor

The "freak diets" of the food faddists were termed a starvation course to "physical destruction" by Dr. Milton Bridges, diet expert of Columbia University.

"There does not exist any fruit, meat, fish or other food which in itself is capable of reducing physical weight as much as 1-1,000th of a pound," he said in an address.

If there is one general deficiency in the North American diet today, he added, it is lack of protein. Protein-deprived persons in particular are inclined to be anemic because they fail to eat enough meat, eggs, cheese, fish and gelatin.

"It is about time some of our old ideas were exploded," he said.

"The efficacy of fish as a brain food, lettuce to produce sleep, onions to cure a cold, parsley to increase fluid output, broth for strength, port wine and rusty nails for blood building, celery to soothe the nerves, skim milk and bananas for reducing, and just not to least, an apple a day to keep the doctor away, have all been proved without foundation."

## SELECTED RECIPES

## DUTCH APPLE PIE

5 or 6 tart apples  
1 cup brown sugar  
1 cup cream  
Purify Flour pastry  
1/2 teaspoon cinnamon or nutmeg.  
Method: 1. Pare apples, core, cut into eighths and arrange evenly in deep pie plate lined with pastry. 2. Your cream over apples and sprinkle sugar and spice on top. 3. Bake in moderate oven 350 degrees for 30 minutes, or until apples are tender.

## Just The Thing

Her newly elevated ladyship had just been introduced to a notable elocutionist, who had kindly volunteered to entertain the children at a local charity garden fete.

"It is nice of you to say you will entertain the children, Mr. Duntong-Greene. How shall I introduce you?" "Well, I am a ladyship. I usually recite extempore."

"Oh, 'Extempore'?" she gasped. "I know of no piece more appropriate!"

## Could Not Accept Gift

Horse Offered To King Edward Had To Be Bought

The borough of Salford in Lancashire, England, offered the king as a gift a chestnut gelding called Cherry Grove, bought two years ago for the chief constable. "Cherry Grove stands 16 hands high."

It is against etiquette for royalty to accept gifts outside their own immediate circle.

But the Duke of Beaufort, master of the horse, inspected Cherry Grove and bought him for £150 (£750). Henceforth he becomes the king's charger.

## Important To Doctors

Science Has Taken X-Ray Movies Of Human Body

The first successful X-ray motion pictures of the organs of the body in action were shown before the American Roentgen Ray Society in Cleveland. The movies, made with an amateur motion picture camera set in front of a fluoroscopic screen used by physicians to see the X-rays pass through the body, satisfy a wish which many medical men have had for years.

Dr. William H. Stewart, Dr. William J. Hoffman and Dr. F. H. Chisholm of the Lenox Hill Hospital of New York, presented the development with the comment that it is "probably destined to become an important division of Roentgenological investigation and diagnosis" as well as in teaching and other uses.

They showed a human heart beating, a throat swallowing food, a stomach and part of the small intestine digesting food, the lungs filling and a diaphragm falling and lifting in the rhythmic process of breathing.

## British Trains Punctual

The London, Midland & Scottish Railway has just been an enviable record for punctuality. A return issued at Euston showed that out of a total of 274,098 express and local passenger trains run within a recent four-week period 262,968, or 96 per cent, arrived at their destination on time.

A five-ton truck in England recently was driven 100 miles with solid fuel made from coal. An estimated fuel saving of 60 per cent. was recorded.

**BROKEN REST**

Getting up night after night, breaking your rest, will damage your health. Burning, swelling, suppressed or too frequent passage warns of kidney and bladder trouble. It is dangerous to let these conditions go unchecked. Soothe and strengthen your kidneys and bladder with time-proved—

Personalographs

Mrs. Jenny Ramsay was a Calgary  
visitor last week.

J. J. Greenan motored to Calgary  
last Friday.

Rev. and Mrs. W. H. McDonnell and  
family and Miss Freda Brunner mo-  
tored to Delia on Tuesday.

Mr. and Mrs. C. L. MacGregor were  
Calgary visitors last Saturday.

A number of Carbon people attend-  
ed the funeral of the late William  
Douglas, held last Saturday in Car-  
bon.

Mrs. A. J. Wright and Lawrence  
Paxon motored to Edmonton on Sun-  
day. Mrs. Jas. Smith accompanied  
them as far as Leduc, and returned  
Monday night.

Mr. McKibbin and family, and Mrs.  
Bess Ramsay left by motor on Wed-  
nesday and will spend a couple of  
days visiting with their parents at  
Champion.

The Ladies of St. Gabriel's church  
will hold a tea in the old bank build-  
ing on Saturday, October 31, from 3  
to 6 p.m. At six o'clock the drawing  
will be made for the three prizes, for  
which the winter months are being sold.  
Those prizes consist of a \$15 mantle  
clock, Rose Wooten Bed Throw and  
Framed Hand Painted Flower Picture.

## BIG KLONDIKE RUSH WAS

JUST 39 YEARS AGO

Just 39 years ago the big Klondike  
gold rush was a household thrill.  
Dawson became the principal town  
in one year the population jumped  
from 3,000 to 18,527. Prices went sky-  
high.

Ham and eggs were \$2.50 an order,  
fresh milk 81, black coffee 25 cents,  
with cream 50 cents; soup "one buck a  
bowl" champagne \$20 a pint. A  
"special" was beans, \$1 a plate. The  
grub house motto was: "No gold, no  
crash."

At the opening night of the Pavilion  
Dance Hall the bar receipts alone ran  
to \$12,500.  
In 1900, \$22,000,000 in gold was ex-  
ported from the Klondike, and one  
postmark—the Eldorado, four miles  
in length—netted \$25,000,000 in in-  
terest. In thirty years the Klondike  
has shipped \$173,417,188 in gold.

There never was room in the Klon-  
dike for all who came, and when the  
best ground had been worked the ex-  
odus began in early 1908. The gold  
seekers swarmed across the border in-  
to "Seward's" (ex-her) Alaska, to make  
other strikes there.

The exhaustion of the Bonanza  
plants by pick and shovel was follow-  
ed by the installation of modern min-  
ing plants, which today export mil-  
lions in gold each year.  
Sourdoughs say that the word Klon-  
dike came from the Indians and meant  
a river of fish.

## CHRIST CHURCH, CARBON

Services will be held as follows:  
1st and 3rd Sundays in month, 11 a.m.  
2nd and 4th Sundays—7.30 p.m.  
5th Sunday in month by arrangement.

REV. S. EVANS in charge

## NOTICE TO CREDITORS

AND CLAIMANTS

In the estate of Andrew Gus-  
tave Anderson, late of the Village  
of Carbon, Alberta, Retired Farm-  
er, deceased.

Notice is hereby given that all  
persons having claims on the estate  
of the said Andrew Gustave Anderson,  
who died on the 15th day of April,  
1936, are required to file with the  
undersigned Executor of his Will by  
the 6th day of December, 1936, a full  
statement duly verified, of their  
claims and any securities held by  
them, and that after that date the  
Executor will distribute the assets of  
the deceased among the parties en-  
titled thereto, having regard only to  
the claims of which notice has been  
so filed or brought to its knowledge.  
Dated this 19th day of October,  
1936.

for Old Country mailing now, Call in  
and see our samples of the latest  
designs.—Carbon Chronicle.

Mr. and Mrs. E. Sellens of Carstairs,  
spent the week end at the home of Mr.  
and Mrs. Corrie Friesen.

Winona Rouleau spent a few days  
last week visiting in Drumheller with  
her grandparents, Mr. and Mrs. W.  
Paxon.

Dr. Burrill and John Strachan of  
Three Hills were Carbon visitors last  
Friday.

## FARM CONDITIONS IN ALBERTA

The agricultural areas of Alberta  
have received very little rainfall dur-  
ing the present autumn and are going  
into the winter months in an ex-  
cessively dry condition. There are ex-  
ceptions to this, notably in the Peace  
River, but on the whole the main  
grain raising area is quite deficient  
in moisture. This means that unless  
unusually heavy rainfall is experi-  
enced next spring a bumper crop is  
out of the question and an average crop  
will be raised with difficulty. This con-  
dition extends into Saskatchewan and  
Manitoba.

It takes 14 inches of rainfall to pro-  
duce a normal crop of wheat, accord-  
ing to investigations conducted by the  
Federal Department of Agriculture of  
Saskatchewan. Summer-fallowing is  
practised to collect the rainfall dur-  
ing two seasons in order that the  
wheat plant may have sufficient mois-  
ture. If 6 inches of rainfall occurs on  
the summer-fall area and an addition  
of 8 inches is received during the grow-  
ing season the year following, a boun-  
tiful crop may be expected. It is sel-  
dom in the main wheat growing re-  
gions of the prairie provinces that 14  
inches of rainfall is received in one  
year.

Western Canada has experienced  
four dry years. The last three years  
have been particularly dry with sub-  
normal crops. A decided change in  
meteorological conditions has been ex-  
perienced next year if a good  
crop is to be harvested in 1937. It may  
be safely said that the shortage of  
reserves in moisture this fall is worse  
than the bad conditions prevailing in  
the last three years.

## PERMANENT VALUE OF

WELL-BUILT ROADS

Possibility of lower cost roads that  
will cost less to build and less to main-  
tain is being investigated by western  
road engineers in view of the proposed  
Dominion-Provincial relief work pro-  
grams in which highway building is  
to be a big item.

In the general field of road build-  
ing there has been a marked difference  
in construction costs since 1920. The  
problem is also one in which the interest  
of the general public is asked as that  
of the engineers. Even though haras-  
sed by trying times of the depression  
and notwithstanding the fact that  
roads have cost a lot of money, people  
of the western provinces are begin-  
ning to think they have been one of  
the best investment their government  
have undertaken. They have borne  
fruit many fold. The provinces of Man-  
itoba, Saskatchewan and Alberta are  
now known on the North American  
continent as attractive places for  
people to go. Already the tourist fig-  
ures for 1936 are indicating big busi-  
ness for this year. To keep it good,  
roads are necessary. As they become  
known the western provinces are be-  
coming singularly attractive to people  
of the south. Year by year they are  
coming in increasing numbers to en-  
joy the rivers, lakes, and weather of  
the prairies.

"Pat—I woke up last night with  
the terrible sensation that my new  
gold watch was gone. The impression  
was so strong that I got up to look."  
John—"Well, was it gone."  
Pat—"No, but it was going."

## VILLAGE OF CARBON

## BY-LAW No. 49

WHEREAS the Council of the Vil-  
lage of Carbon, in the Province of  
Alberta, has agreed to enter into a  
contract with Canadian Utilities Lim-  
ited to provide the residents of the  
Village of Carbon with a supply of  
electric light and electric power, and  
to confer a special franchise upon  
Canadian Utilities Limited for a per-  
iod of twenty years.

NOW THEREFORE the Council of the  
Village of Carbon enacts as fol-  
lows:

1. The Village of Carbon hereby  
grants to Canadian Utilities Limited,  
its successors and assigns, a special  
franchise in respect of the subject  
matter of the contract in the form  
which is hereto annexed as Sch-  
dule "A", for the period of periods  
and together with all the rights, pow-  
ers and privileges and subject to all  
the terms, conditions, provisions, re-  
strictions and penalties as therein set  
out and contained.

2. Before the final passing of the  
By-Law, it shall be submitted to the  
Proprietary Electors, and shall only  
become effective upon ratification by  
two-thirds of the Proprietary Elec-  
tors voting thereon.

3. The Mayor and Secretary-Treas-  
urer authorized and empowered  
upon the ratification of this By-Law  
by the Proprietary Electors as afore-  
said to sign and execute on behalf  
of the Village a contract with Cana-  
dian Utilities Limited in the form  
herein annexed as Schedule "A".

Introduced and read the first time  
on Council this 30th day of June A.D.  
1936.

Read the second time in Council  
this 5th day of October A.D. 1936.  
Read the third time and finally  
passed in Council this A.D. 19

suit of such work.

5. The Village agrees in Clause 5  
to purchase all light and power for  
municipal purposes from the company.

6. Clause 6 defines the rates, cop-  
ies of which are on file at the Village  
Secretary-Treasurer's office, and may  
be seen upon request.

7. The Company under Clause 7  
has the right after 48 hours' notice  
to disconnect the service to any cus-  
tomer whose account is unpaid for  
more than 30 days.

8. Under Clause 8, the Company  
agrees to supply meters without rent,  
and to submit a consumer's meter to  
test by the Department of Trade and  
Commerce of Canada on the request  
of the consumer.

9. The Company agrees in Clause  
9 to keep its transmission line in good  
condition and to supply electric light  
and power service subject to interrup-  
tion by accidents beyond the con-  
trol of the Company.

10. Clause 10 obligates the Com-  
pany to liability at law for injuries  
sustained or suffered by any person  
or property caused by any act or  
omission of the Company or its em-  
ployees.

11. Clause 11 gives the Village the  
privilege of terminating this agree-  
ment with the consent of the Board of  
Public Utility Commissioners upon  
three months' notice should the com-  
pany fail to implement and comply  
with all the terms and conditions.

12. Clause 12 provides that the  
Company shall have the rights and be  
subject to the liabilities created by  
the Water, Gas, Electric and Tele-  
phone Companies Act.

13. Clause 13 provides that the  
Company's rights shall not be exclus-  
ive as against His Majesty in right  
of the Province.

14. The Company agrees by Clause  
14 to submit to the Jurisdiction of the  
Board of Public Utility Commis-  
sioners.

15. Clause 15 is the customary  
clause making the agreement binding  
on the successors of the parties.

16. Clause 16 provides that the ex-  
isting agreement between the Vil-  
lage and the Union Power Company, Li-  
imited, dated July 1926, shall be can-  
celled.

of Carbon that the above is a true  
copy of a proposed by-law which  
has been introduced and which will  
be finally passed by the Council of  
the Village of Carbon within four  
weeks from the assent of the Pro-  
prietary Electors thereto.

Notice is hereby given that the  
vote of the Proprietary Electors there-  
on will be taken on Monday, the 2nd  
day of November A.D. 1936, at a poll  
situated in the Secretary-Treasurer's  
office, Carbon, and the said poll will  
be open for each purpose between the  
hours of 10 o'clock in the forenoon  
and 7 o'clock in the afternoon.

Dated this 8th day of October, 1936.

(Signed): ALEX REID,

Returning Officer
